

PAYMENT INFRASTRUCTURE COMPANY

# Production-grade payment infrastructure for modern *platforms*.

MetaNord helps fintechs, PSPs and digital platforms build faster, lower-cost payment workflows using modern settlement rails, starting with Bitcoin Lightning and expanding into stablecoin infrastructure.

<1s

CONFIRMATION

<\$0.01

NETWORK FEE

24/7

AVAILABILITY

EU-based

OPERATING BASE

Indicative network-level capabilities. Actual performance depends on routing, liquidity and partner setup.

§ 01 · WHAT WE DO

## Modern payment rails, delivered through one operating layer.

### Lightning Network Payments

Real-time Bitcoin settlement with low network costs and final, chargeback-free transactions, delivered through API or managed payment infrastructure.

### Stablecoin Rails

Fiat-pegged digital settlement workflows for global pay-ins, payouts and treasury movement, built around the same operating layer.

DELIVERED VIA REST API · Embeddable widget · White-label payment layer · Managed infrastructure

ENGAGEMENT MODEL Advisory · Integration support · Operating setup · Partner coordination

OUR MISSION

*Make fast, borderless payment infrastructure a standard capability for digital platforms.*

§ 02 · WHO WE SERVE

-  E-commerce & marketplaces
-  Cross-border payments
-  PSPs, neobanks & payment platforms
-  Wallets & fintech apps
-  Gaming & digital platforms
-  Payment orchestrators

§ 03 · WHY METANORD

## Engineered to ship, priced to scale.

 <p><b>Implementation-ready</b></p> <p>Designed for real payment operations, not abstract pilots.</p>	 <p><b>Fast settlement visibility</b></p> <p>Reduce waiting windows with faster confirmation, clearer status and better operational visibility.</p>
 <p><b>Lower-cost rails</b></p> <p>Use modern network economics to reduce transaction costs at scale.</p>	 <p><b>Compliance-aware setup</b></p> <p>EU-based structure, documentation and onboarding support built around regional operating expectations.</p>

LET'S BUILD TOGETHER

**Let's build modern payment infrastructure.**

For fintechs, PSPs and digital platforms building faster, lower-cost settlement workflows.
